SUMMARY

Junior C# developer with a strong grasp of .NET, MVC, HTML, CSS, Bootstrap, JavaScript, and SQL. With a background that sharpens my problem-solving and communication skills, I focus on building clean, scalable solutions that meet real-world needs. Quick to learn, easy to collaborate with, and driven to grow in a fast-paced development team.

WORK EXPERIENCE

Junior C# Developer - XET Group

October 2023 - October 2024

Developed a bus tracking system for eThekweni Municipality to improve public transport services for residents, featuring a back-office web portal and a mobile app.

- Developed a back-office web portal and Flutter mobile app with real-time GPS tracking using C#, MVC, HTML, JavaScript, SQL, and Dart to streamline operations and improve user experience.
- Optimized performance through database tuning, debugging, and testing; collaborated on code reviews and documentation; delivered cost-effective solutions that cut expenses by 20% and boosted efficiency by 25%.

EDUCATION

Diploma in ICT: Business Analysis -

January 2020 - December 2022

Durban University of Technology

Grade 12/Matric - Zombizwe High School
